

About Copenhagen Parts

Copenhagen Parts is a Danish, Copenhagen based manufacturer of bike parts. Bikes are part of our lifestyle; We love bikes and we love riding them. We live for developing innovative and functional products for our bikes. Our first product is the **Bike Porter**. So if you love bikes like we do and if you are a connoisseur of minimalist and Scandinavian design you will like what we do.

About Bike Porter

Old-school basket weave is fine if that's your thing, but what if your style is more urban than country cottage? The Bike Porter brings urban attitude to your urban ride.

Reasons to love it

- integrated carrying solution
- Urban attitude
- Quality, simplicity and character
- Anti-theft
- Easy to assemble

The Bike Porter is precision made from alloy tubing, making it light and strong. It's designed to fit in a-head stem easily, installing just like any normal handlebar and can be attached to just about any bike.
